EDUCATION

B.Tech in Computer Science Engineering | Amity University, Noida *Sep 2022 – May 2026 | CGPA: 7.04*
Relevant Coursework: OOP, DBMS, Operating Systems, Computer Networks, Software Engineering, Artificial Intelligence, Information Security
Class XII (Senior Secondary) | Mayo International School, Delhi *2022 | 71.4%*
Class X (Secondary) | Delhi Public School, Indrapuram *2020 | 84.4%*

TECHNICAL SKILLS

Languages: Python, SQL, HTML/CSS
Testing & Automation: Pytest, Postman (API Testing), Playwright, Manual Testing, Regression Testing, Test Case Design
Backend & Databases: Flask (REST), MySQL, RDBMS, MVC Architecture, JWT Authentication, JSON
Tools & CI/CD: Git, GitHub, Jenkins, VS Code, MySQL Workbench
Core Concepts: Data Structures & Algorithms (DSA), OOP, DBMS, SDLC

PROFESSIONAL EXPERIENCE

Software Testing Intern | Digicode Software Pvt. Ltd., Noida *April 2026 – Present*

- **Designed** and executed structured manual test cases and detailed bug reports for live enterprise features, establishing reliable baseline coverage across functional and regression suites.
- **Conducted** systematic API testing using **Postman** across GET, PUT, POST, and DELETE endpoints, verifying authentication flows and error handling to surface defects early in the development cycle.
- **Built Python + Pytest + Requests** automation scripts to transition the team from manual to automated API testing, **reducing regression execution time by over 99% — from 20 minutes to 3 seconds.**
- **Queried SQL** databases and cross-referenced **Google Sheets** to validate backend data against expected application state, ensuring end-to-end data integrity across test runs.
- **Integrated Playwright** for UI automation and wired test suites into **Git / GitHub / Jenkins** CI/CD pipelines, enabling continuous test execution on every code push.

PROJECTS

Enterprise Human Resources & Payroll System | *Python, Pytest, Requests, Postman, SQL* *Staging*

- **Spearheaded** end-to-end testing for a high-complexity HR and payroll platform, replacing an entirely manual QA process with a structured, repeatable automated framework.
- **Architected** a **Pytest + Requests** test framework covering critical payroll calculation logic, employee CRUD operations, and JWT authentication endpoints.
- **Authored** automated scripts that fully replaced manual regression workload for core modules, **slashing execution time by over 99%** and improving defect detection consistency across builds.

CERTIFICATIONS

- **Generative AI Content Creation** | Adobe
- **Nasscom Digital 101 Journey** | NASSCOM
- **Basic Networking for CCNP Routing and Switching** | Cisco
- **Introduction to Packet Tracer** | Cisco Networking Academy
- **Marketing Specialist Specialization** | Coursera
- **Body Language: Key to Professional Success** | NPTEL (IIT Roorkee)
